The UCF Report

News and Announcements for the Faculty and Staff of the University of Central Florida

Knight Notes

'Tis the season to be jolly—and give your vocal chords some exercise in the process. The Christmas Music Committee is again sponsoring a weeklong Christmas carol sing and invite all faculty, staff, and students to participate. Join the group 12:30-1:30 p.m. Dec. 1-5 in the lobby of the Education Building. And you don't even have to know the words—song sheets will be provided, as will an accompanist and song leader.

The Art Gallery in HFA 305 has a new display—prints and drawings by Rochell Toner, associate professor of art at the Tyler School of Art in Philadelphia. Her large-sized etchings follow a theme of "sharpness," featuring knives, nails, and other pointed objects. The exhibit will be on display through mid-December. Gallery hours are 8:30 a.m. to 4:30 p.m. weekdays.

Somewhere along the way the credit line on last week's article on the Reagan Administration's policies on education got lost. We wanted you to know that the story was written by M.K. Matzke and Janet Hook of *Campus Reports*, a national collegiate news service.

Our staff sends along best wishes to all of you for a joyous Thanksgiving holiday. As you reflect on the bountiful harvest of blessings that are ours, pause for a moment and tie a yellow ribbon around your thoughts for the American hostages.

\$1 million chair endowed

An endowed chair. Down through the ages, the establishment of a special faculty chair has been a mark of excellence in education. Symbolic of the University's continued commitment to quality education, this chair, draped with cap and gown and adorned with the school seal represents UCF's first endowed chair, to be known as "The Della Phillips-Martha D. Schenck Chair in American Private Enterprise." President Colbourn announced the establishment of the chair at a press conference Tuesday. For additional pictures and story, see pages 4-5.

Home for the holidays?

Work 'curtailment' planned

In a move to save energy and thereby cut costs, the University will curtail most non-essential services from the close of work Dec. 19 through Jan. 4.

As a result, all University employees are encouraged—not required—to take leave (annual, accrued compensatory, personal holiday or leave without pay) for all workdays beginning Dec. 22 and ending Jan. 2.

All employees will be granted paid holidays on Christmas Day, the day after Christmas, and New Year's Day. The State University System has asked Gov. Graham to declare Jan. 2, 1981, as an additional paid holiday for all employees. Also, a request has been made to the Secretary of Administration to allow the use of "advance" leave for those employees who do not have sufficient leave accrued. Decisions on both requests are still pending.

Certain campus buildings require heat/air conditioning to maintain research projects or temperature-sensitive equipment. These include the laboratory wing of the Engineering Building, the fourth floor of the Humanities & Fine Arts Building, the Computer

Center, areas of the Library; and the Biological Science, Science, and Education buildings.

Other areas in these buildings, as well as all other areas on campus, will have lighting but will not have heat or air conditioning provided.

The taking of leave over the two-

week period is not mandatory. Plans to centralize assigned work stations for these employees who wish to work, but whose normal work station is in a building which will be closed will be published in an upcoming issue of *The UCF Report*.

BOR approves dorm contract; construction to begin soon

At a Friday meeting in Tallahassee, the Board of Regents approved the awarding of a \$4.2 million contract to Roger P. Kennedy General Contractor Inc. of Casselberry to construct a four-building dormitory complex on campus that will more than double UCF's on-campus housing facilities.

The approval is contingent on the sale of construction bonds to the federal Department of Housing and Urban Development, the agency underwriting the project.

After the necessary HUD endorsement is received, construction could start immediately. The new complex, to be built southwest of the new

Health Center between the Student Center and the art domes, will consist of two four-story units, one three-story unit, and a one-story commons building. The new facility will provide space for 447 students; the existing dorms, built in 1968, house 414 students.

Bob Webb, director of Facilities Planning, anticipates construction will begin soon after the first of the year. The construction timetable calls for at least one of the four-story structures to be completed by August, 1981, when the University will switch to the semester system.

Bids for the project were opened Nov. 18. The Kennedy firm submitted the low bid of \$4,297,800.

Official Memoranda

To: All Faculty and Staff
From: Lt. Col. Floyd V. Kimberly,
 chairman, Department of Aerospace Studies
Subject: Award Ceremony

The Department of Aerospace Studies invites all faculty and staff to attend a ceremony for the presentation of the Air Force Outstanding Unit Award to UCF's Air Force Reserve Officers Training Corps (AFROTC) Detachment 159. The ceremony will take place at 1:15 p.m. next Tuesday in the Student Center Auditorium. Maj. Gen. David B. Easson, AFROTC commandant, will present the award.

This award, given for excellence to select units of the United States Air Force, is the result of hard work and exceptional performance by the faculty, staff, and cadet corps of this detachment. It is also an indication of the excellent support given by the administration, faculty, and staff of this University. I thank each of you for the support you have given this detachment in the past and hope to continue our fine relationship in the future.

To: All Departments
From: G.C. Horton, director of Purchasing
Subject: Business Cards

This is to advise that a new state contract has been established with Commercial Printers in Pompano Beach, Fla., effective Nov. 12, 1980. Order forms for each card ordered must be submitted with the purchase order and will be available from the Purchasing Department when the ordering department picks up its Letter Purchase Order.

In the meantime, any orders placed prior to the issuance of this memorandum will be honored.

Any questions regarding this new contract, please contact Winnie West in Purchasing, x2661.

To: All Career Service, T & R, and A & P Employees
From: Deborah Evans, Benefits coordinator,
 Division of Personnel
Subject: Division of Retirement Employees' Annual Contribution Statement

Attached to your Nov. 26 paycheck will be your Employees' Annual Contribution Statement for the fiscal year ending June 30, 1980. These statements reflect the year-to-date retirement contributions on deposit, and fiscal year salaries (monies earned from July 1, 1979 - June 30, 1980).

To insure that all data is correct, please review your annual statement not only in the area of contributions and salary, but also verify correct spelling of name, social security number, and retirement plan.

If you have any questions regarding this matter please call me at x2771.

Alumni Association seeks nominations for annual awards

The Alumni Association Awards and Scholarship Committee once again is calling for nominations for the 1981 Distinguished Alumnus and Distinguished Student awards, to be presented at the Alumni Association's annual spring banquet.

Deadline for receipt of nominations is March 1. All faculty and staff members are invited to submit nominations.

The Distinguished Alumnus Award, established in 1978, honors a UCF graduate for outstanding contributions to the University, the Alumni Association, or his or her community or occupational field.

Rep. Dick J. Batchelor, the first UCF alumnus to achieve state-level political office, was the award's first recipient.

Last year's winner, JoAnne Puglisi, a 1973 graduate, is a project engineer who works on high performance Naval aircraft. She was president of the UCF Alumni Association in 1978.

The Distinguished Student Award, instituted last year, is given to an undergraduate junior or senior who has attended UCF for at least four quarters immediately prior to the date of award. It is based on outstanding achievements in at least one of these areas: scholarship, athletics, social groups, service organizations, religious activities, campus government, journalism, speech, the mass media or creative and performing arts.

The winners of both awards will be selected by the Awards and Scholarship Committee of the UCF Alumni Association, composed of

representatives of alumni, students, faculty, and administrators.

For more information about the awards, or to pick up a nomination form, call the Alumni Relations Office, x2233.

Club plans yuletide singalong

Good Old St. Nick will be a special guest during a Christmas Festival and Singalong planned, produced, and presented by the UCF Circle K Club.

The Dec. 3 festival will begin at 7:30 p.m. in the reflecting pool area adjacent to the Administration Building, and will feature songs and music by the UCF Choir, under Steve Powell, and University Brass Ensemble, under Roy Pickering.

"We'll also have a real, live tree and refreshments after the festival," said Gary Omlor, Circle K president, who added an invitation to all faculty and staff and their families to join in the fun.

The UCF Circle K Club, sponsored by the South Orlando Kiwanis Club, is one of the oldest chartered student organizations on campus. Circle K is the world's largest coed collegiate service organization.

About energy

By Florida Solar Energy Center

All buildings constructed in Florida must now, under a new state law that became effective Oct. 1, 1980, conform to the Florida Model Energy Efficiency Code for Building Construction. Also, renovations to buildings must in some instances meet the code standards.

Home buyers now will be able to compare the energy efficiency of homes built after October just as they can compare fuel efficiency of new cars. All new homes must be rated at an Energy Performance Index of 100 points or less—the lower the point value, the more energy-efficient the home will be. A home with an EPI of 50 points will be 50 percent more energy-efficient than a 100-point home of the same size.

Under the new legislation, all buildings constructed after Oct. 1 also must have the plumbing arranged so that solar or waste heat recovery equipment for water heating can be installed easily at a later date. This provision of the bill is expected to add approximately \$20-\$50 to the construction cost of an average home; however, the law's intent is to reduce the installation costs of solar and waste heat recovery systems should the owner decide to install such equipment in the future.

The Department of Community Affairs will administer and enforce compliance with the code.

Can you dig it?

As a community project, the Devonshire Garden Club of Longwood donated 40 viburnum shrubs and three oak trees to the University to beautify the soccer field. Club members, with shovels in hand, help Jim Rudy, left, soccer coach, plant the new greenery. Ready to put those shovels to work are, from left, Lynn Bowlus, club president; Georgie Robb; Lil Taylor; Martha Herr; and, in front, Rebecca Schwartz.

Park closes \$2.5 million land deal

Following almost a year of negotiations, the Orange County Research and Development Authority last Thursday concluded the purchase of approximately 1,050 acres of land contiguous to UCF. Citizens Mortgage Investment Trust, a Boston-based firm, sold the land to the OCRDA for \$2.5 million.

OCRDA, working cooperatively with UCF, purchased the land for the development of the Central Florida Research Park, where numerous research-oriented firms and agencies are expected to locate.

Having secured an option on an additional 63 acres at an earlier date, and having control of some 260 acres made available by the University, OCRDA now has almost 1,400 acres with which it can act to achieve its goals.

According to Ralph D. Gunter, OCRDA chairman and acting director of the research park, the principal objective of this undertaking is to develop a University-related research park of the highest quality, which will serve to (1) improve the quality of higher education at UCF, and (2) broaden and strengthen the economic base of Central Florida.

"Actually, it would have been our preference to acquire a smaller tract of land, but the location of this land was perfectly suited to our purposes and the owners did not wish to sell it off piecemeal," Gunter noted.

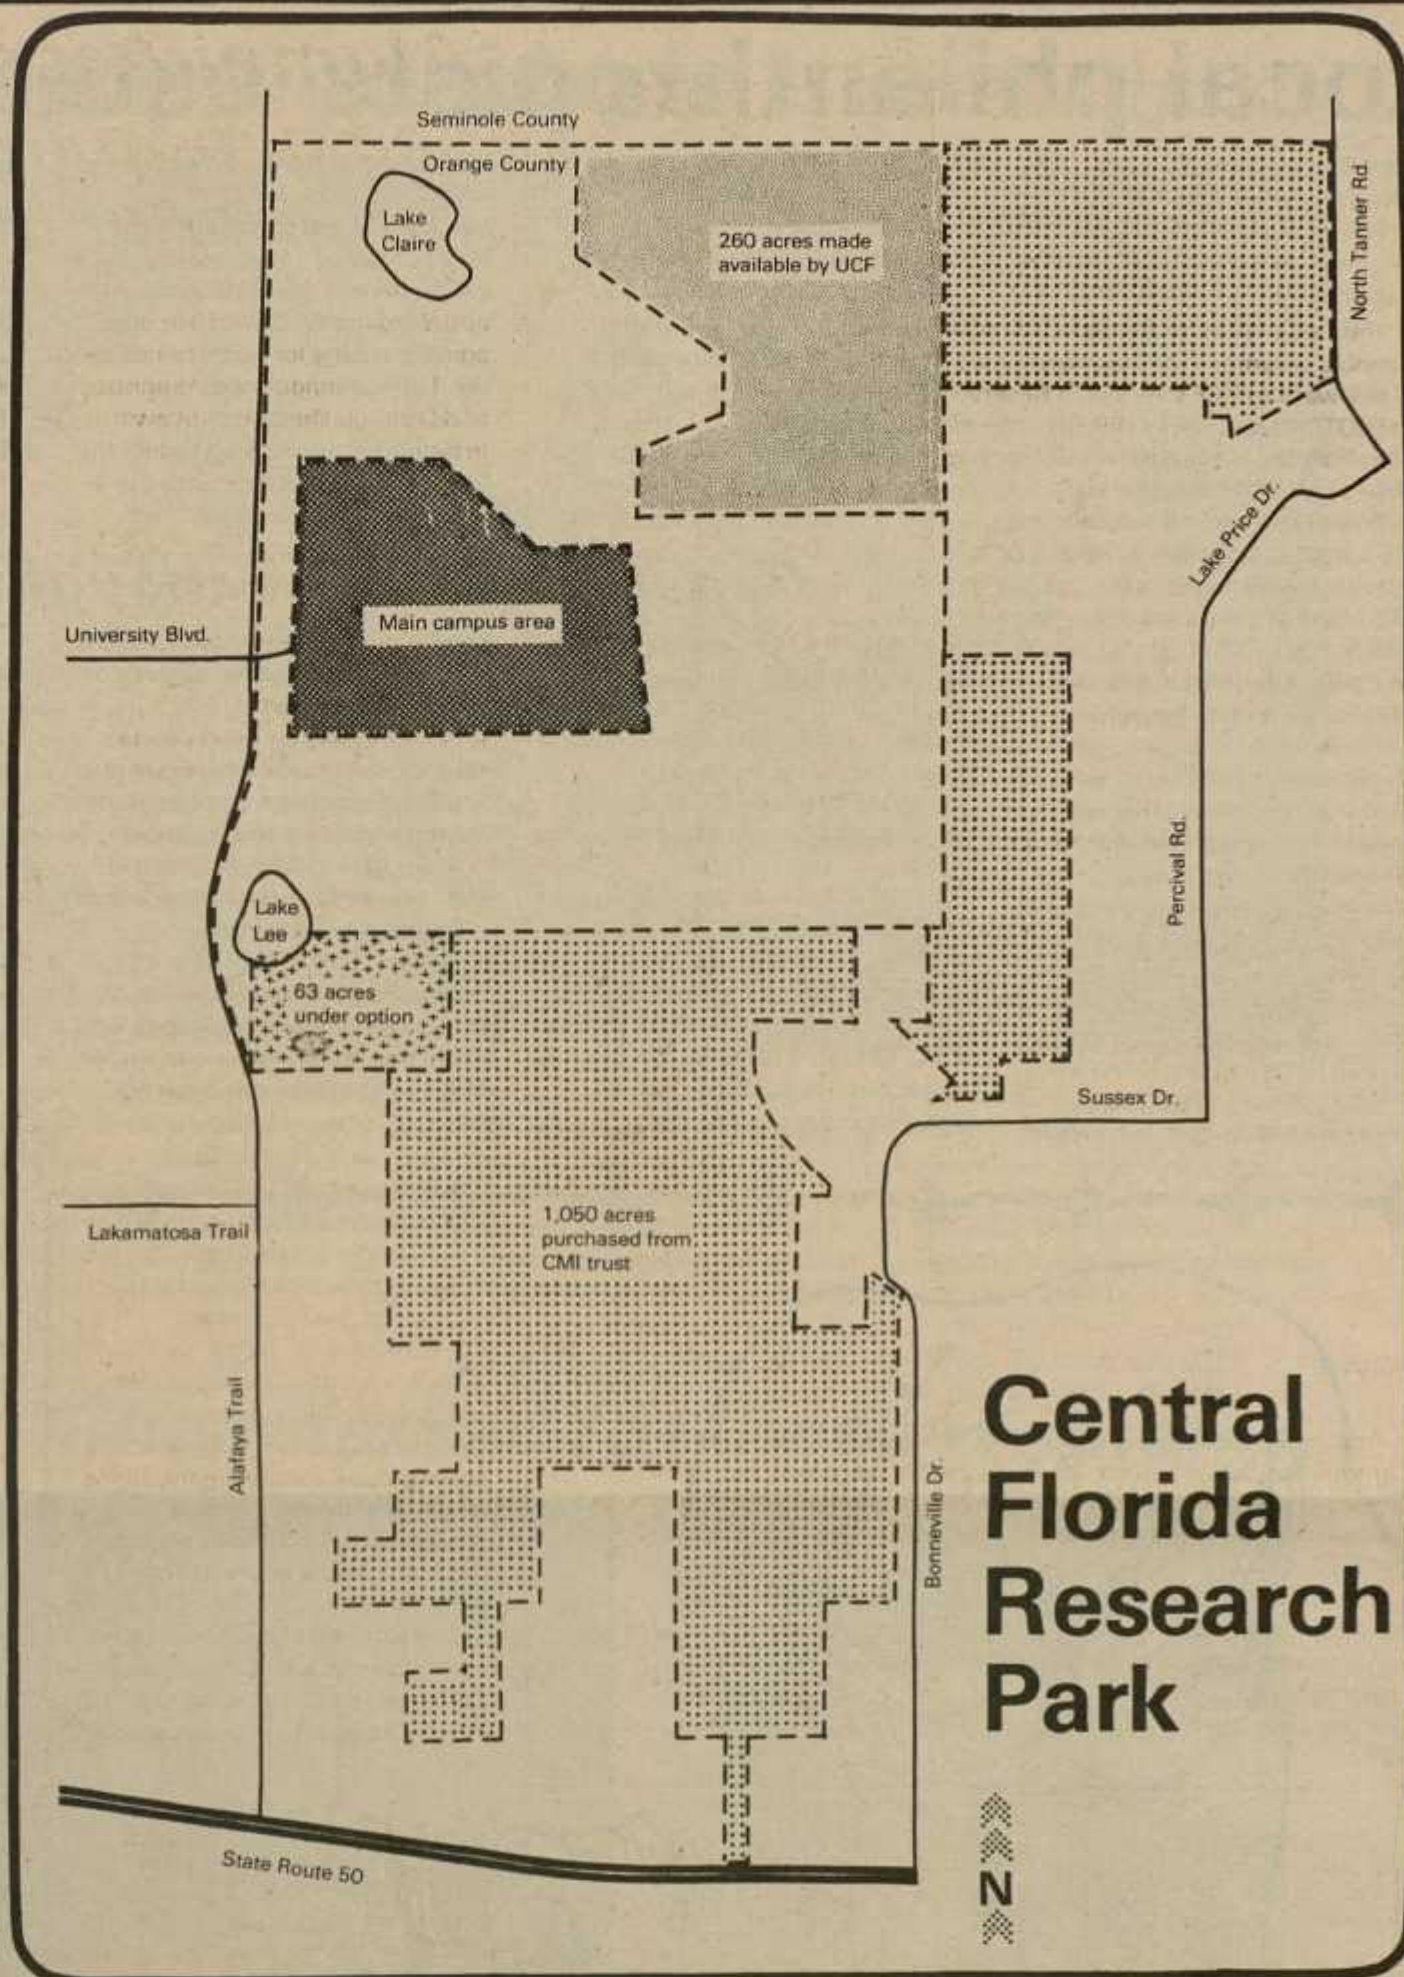

The Central Florida Research Park will seek to combine the research activity and expertise of the University's faculty and graduate students with the research needs of private industry and government agencies.

Gunter, who has served UCF as director of the Division of Sponsored Research for the past 10 years, pointed out that the institution's research activity has grown tremendously in recent years and that the research park concept seemed quite well suited to abetting the University's growth and stature.

Other OCRDA members are Leslie Ellis, UCF's vice president for Academic Affairs; Orange County Commissioner Dick Fisher; David Hughes, president of Hughes Supply; and James Robinson, local attorney.

The research park will be generally patterned after the highly successful Research Triangle Park in North Carolina, which is affiliated with Duke University, North Carolina State University, and the University of North Carolina. Largely due to the success of the 5,500-acre Research Triangle Park, the Raleigh-Durham area now boasts the highest concentration of engineers and scientists per capita in the nation.

The many high technology industries that are currently wishing to move to Central Florida create a significant pool of

Central Florida Research Park

potential tenants for the CFRP, Gunter said. "We have been talking with a number of major organizations, both public and private, that have indicated strong interest in the concept." The probability of contracting with some of them soon for space in the park "ranks very high," he declared.

Depending on a tenant's desires, its facility can be built by OCRDA or by the company itself. In either case, construction can be financed through tax-exempt industrial revenue bonds. Construction will adhere to strictly enforced covenants that call for structural design that will complement the University's existing buildings.

The relationship of the University and the park will be mutually advantageous, said Gunter. Occupants will have access to resources of the State University System, while UCF researchers will have the opportunity to lend their own expertise to projects undertaken by tenant organizations. In addition to the use of UCF computer facilities, laboratories, classrooms and the

like, there is the UCF Library, which is linked to more than 900 libraries around the country.

One of the primary attractions for employees of incoming

research companies will be the availability of continuing education courses that are offered by the University and can be structured to meet particular needs.

Energy committee begins pilot conservation study

Think energy conservation. That's what members of the Campus Energy Management Committee will be doing over the next few months and they will be enlisting the help of the entire campus community in finding ways to cut down on energy usage University-wide.

Convening for their initial meeting last week, committee members agreed to circulate a questionnaire to faculty, staff, and students to gain input regarding the conservation effort.

Last year, the Board of Regents appropriated \$10,000 to fund a pilot study of energy conservation which could be implemented throughout the State University System. UCF was chosen to

conduct the study.

Robert Doering (Industrial Engineering) will chair the committee. Working with him will be John Bolte (Academic Affairs), vice chairman; Joyce Clampitt (Business Affairs); Barth Engert (Public Affairs); Burton Eno (Mechanical Engineering); Bill Morris (Operations Analysis); Richard Neuhaus (Physical Plant); Barbara Heinsohn (Medical Technology), representing the Faculty Senate; and Melissa Hamrick, student representative. Having conducted preliminary energy audits of many campus buildings, Pat Bishop (Mechanical Engineering) will serve as a consultant to the committee.

Local philanthropists establish University

In the first gesture of its kind in the Central Florida area two generous supporters of UCF Tuesday met with University officials to confirm a commitment which will create a \$1 million endowed Chair in the College of Business Administration.

To be known as "The Della Phillips-Martha D. Schenck Chair in American Private Enterprise," the endowment marks a milestone in UCF's brief history and may well encourage similar support for Florida's fastest growing state university.

The Phillips-Schenck Chair is to be established under the terms of the 1980 Eminent Scholars Act which provides \$400,000 in state funds in the event that \$600,000 is raised from private sources within a six year period. UCF officials believe it will be possible to complete funding requirements by October, 1981, and have the Phillips-Schenck Chair operational in 1982.

The UCF Chair will be assigned to the University's Center for Economic Education in the College

of Business Administration, which will undertake a national search for an outstanding leader in teaching and research. The holder of the Chair will be expected to make a significant contribution to the Center's work in economic education with both the private and public sectors.

Robert Hicks, director of the UCF Center for Economic Education, hailed the Phillips-Schenck Chair

as the cornerstone of allied programs in the study and teaching of the principles and functioning of private enterprise in the United States. He went on to note that many of the nation's problems can be traced to "the low level of economic literacy of our citizens."

Clifford L. Eubanks, dean of the College of Business Administration, praised "this

generous gift of The Dr. P. Phillips Foundation and the Schenck family; it will enable the college to add outstanding programs in economic education for its students, public school teachers, and those employed in the private sector of our economy."

The reaction to the opportunity presented by the Eminent Scholars Act was expressed in part by Jay Schenck, who with his brother,

Benefactors share thoughts...

For the last several decades, American private enterprise has been eroded by neglect and its failure to assure that every high school graduate has a good understanding and belief in how our economic system should function.

In 1974 the Florida Legislature enacted Statute No. 233.064 which provided in part "the course--shall emphasize the free enterprise-competitive economy of the United States as the one which produces higher wages, higher standards of living,

greater personal freedom and liberty than any other system of economics on earth."

The Dr. Phillips Foundation believes that such mandate has not been vigorously pursued in the high schools throughout Florida, and in 1977 it joined with others of the community in assisting the Center for Economic Education of the University of Central Florida in providing economic courses for those teachers within our system who could afford the time for them.

The Foundation further believes that to be most effective, future teachers must be provided better fundamentals in the private enterprise system than have previously been afforded to them in the several universities of the state. It is hoped that the creation of this Chair will be an incentive to other institutions for similar action.

The resources of The Dr. Phillips Foundation have been derived strictly from the fruits of the free enterprise system as employed by Della Phillips, her husband, Dr. P. Phillips, and their son, Howard Phillips, and it was their wish and desire that the private enterprise system be reinforced and perpetuated in so far as their resources would permit.

— H.E. 'Gene' Johnson

I have been preaching free enterprise and American opportunity to my children since day one. In fact, I think I spoiled a few family dinners by sticking to these subjects when hula hoops may have been a more enjoyable topic for them.

When UCF decided that the first Chair at the University would be in private enterprise, I was absolutely delighted. Since I am serving as the Chairman of the Center for Economic Education at UCF, it was natural for Dr. Grasty (UCF's vice president of Community Relations) to discuss with me how and where the funds might be raised. At this point I had already discussed with my partner and brother, Virgil, the possibility of our joining with Phillips to fund the Chair and his immediate response was 'yes.'

So, here we are, and it's a wonderful feeling that we are able to participate in the creation of a Chair that will further the very system that made it possible for us to do this.

— Jay Schenck

Jay and I believe one of the finest ways to thank our mother for her many sacrifices for us is to participate in an endowed chair in private enterprise at the University of Central Florida.

It is our feeling also that in this way we'll be able to give back something very worthwhile to a community and an economic system that has indeed been good to us.

We're in hopes that this chair will afford students an opportunity to reach nearer to their full potential.

— Virgil Schenck

We want to help YOU fill your Christmas Stocking

ity's first endowed chair

Virgil, is a partner in the Schenck Company, distributors for Miller, Miller Lite and Lowenbrau beers in Orange, Seminole, Brevard, Osceola and Lake counties.

"...it's a wonderful feeling that we are able to participate in the creation of a Chair that will further the very system that made it possible for us to do this," Jay Schenck declared.

"It is our feeling also that in this way we'll be able to give back something very worthwhile to a community and an economic system that has indeed been good to us. We're in hopes that this Chair will afford students an opportunity to reach nearer to their full potential," said Virgil Schenck.

H. E. "Gene" Johnson, president of The Dr. P. Phillips Foundation, noted that the resources of the Foundation "have been derived strictly from the fruits of the free enterprise system as employed by Della Phillips, her husband, Dr. P. Phillips, and their son, Howard Phillips, and it was their wish and desire that the system be reinforced and perpetuated...."

President Colbourn recalled "the very existence of UCF is a consequence of local enterprise and initiative. It is indeed gratifying that we are able to announce this singular evidence of continuing local support which will so significantly enhance educational opportunities in Central Florida." He noted UCF's new Chair has distinguished company: similar Chairs are located at such institutions as Wisconsin, Southern Methodist, Purdue, Texas, Ohio State, Kent State, Baylor, Mississippi, and Oklahoma.

Statute enables matching funds plan

The Eminent Scholars Act, signed into law by Gov. Bob Graham on June 27, 1980, provides the means by which trust funds administered by the Board of Regents may be applied to a matching funds program for the establishment of endowed chairs.

The amount appropriated to the trust shall be allocated by the Regents to each university on the basis of one \$400,000 challenge grant for each \$600,000 raised from private sources.

When the sum of the challenge grant and matching funds reaches \$1 million, the appropriate foundation at each university and its president may recommend to the Regents, for approval, the establishment of an endowed chair.

The selection of Eminent Scholars shall be the responsibility of the president of the university granted approval for the chair. The proceeds of the endowment may be used as salaries or a supplement for salaries for the holder of the chair and for those persons directly associated with the Eminent Scholars' work.

Yesterday was a happy one for President Colbourn and UCF Foundation president J. Blair Culpepper. Speaking to more than 50 community leaders and members of the media at a morning press conference at the Orlando Area Chamber of Commerce, President Colbourn officially announced the commitment for The Della Phillips - Martha D. Schenck Chair, made possible by a \$600,000 gift from The Dr. P. Phillips Foundation and the Schenck family. Joining President Colbourn at the press conference were, from left, Jay Schenck, Virgil Schenck, Culpepper, and Gene Johnson. President Colbourn praised their generosity, noting that it was their commitment to the University and support of the American enterprise system which made this Chair possible.

Chair named for these women

A native of Mobile, Ala., the late Della Phillips moved to Orlando in 1906, five years after her marriage to Dr. P. Phillips, widely-known citrus grower and investor. Following his death in 1959, she devoted her time and attention to the family business.

She and her husband were considered forerunners in establishing Orlando's reputation as a center for music. They formed the Mendelssohn Club shortly after their arrival, and later financed numerous music festivals.

Mrs. Phillips' interest in music stemmed from early training in piano and music theory while attending private schools in New Orleans and Mobile.

She was the mother of the late Howard Phillips, Orlando philanthropist, and Walter Phillips. Mrs. Phillips died Sept. 16, 1968.

Martha D. Schenck, who lives in Winter Park, is the mother of Jay and Virgil Schenck, owners of Schenck Company, Orlando and Cocoa.

Mrs. Schenck, who was widowed in 1938, has four children. After her husband's death, and with no experience in the work world, she took over the family firm—Triangle Producing Company—in Greensboro, N.C., and oversaw production of amateur theater in 38 states.

She is a native of Wilmington, N.C., where she was born in 1901. She is a 1921 graduate of Lutheran Deaconess School, Baltimore.

Mrs. Schenck moved to Central Florida in 1964, and currently lives in the Whispering Waters Apartments in Winter Park.

In addition to sons Virgil and Jay, there is son Jerry, an insurance executive, and Jay's twin, Martha Chamblee, who resides in Greensboro.

Film Clips

The following is a list of preview prints that can be viewed in Audio-Visual Services until noon on the date indicated at the end of each description. For further information call x2574.

A Blind Teacher in a Public School (23 min-color) . . . The story of a blind man who works a full-time job as a seventh grade English teacher. David Ticchi, legally blind since birth, operates as a normal instructor and shows peculiar advantages of a blind teacher in the classroom. In summary, the film points out that

Fitness in the future?

Beginning winter quarter, the Office of Recreational Services hopes to expand its noontime fitness opportunities with the addition of a body development/fitness class. This class is scheduled for the newly-remodeled Body Development (weight lifting) Center located in the dome next to the pool. The center has more than \$20,000 worth of exercise and strength equipment ready for your use.

This class is in addition to the very successful noon exercise and fitness class, conducted three times a week in the Education Building's Multipurpose room and will be geared more to strength and muscular development.

Cost for the fitness classes is \$5 per quarter for faculty and staff members (students free). If you are interested in this class and want to see it added to the Rec Services program, please call x2408 and let us know.

Santa Claus calling!

A short reminder from Rec Services to parents of children 3-6 years of age: fill out the Santa call form at Rec Services to arrange for your little one to receive a Christmas call from the jolly man himself. Calls will be made Dec. 2, 4, and 8 from 5:30 to 7 p.m.

blindness does not necessarily disqualify a person from a career in teaching. 12/10.

Exploring the Spectrum (46 min-color; 2 parts) . . . John Ott, a time lapse photographer, records observations of plant and animal health and their exposure to visible and non-visible rays of the electromagnetic spectrum. He makes some observations which have contributed to the development of a new science called photo-biology. His observations have intrigued some well known scientists and psychologists from around the nation. 12/10.

Bruges (59 min-color; 2 parts) . . . Illuminations from medieval manuscripts are shown along with paintings by Memling and Van Eyck. Live footage of Bruges, a world trading center, and its reconstructed festivals capture the importance of it while it flourished in the 10th century. 12/10.

Legacy (5 min-color) . . . A film done in clay animation of the history of natural resources. In the beginning the universe is formed from a cosmic reaction with gases turning into water to form oceans. Within the oceans creatures appear and are pressed into mud which in turn create our natural resources, gas, and oil. In actuality the film is a legacy of a billion years in a nutshell. 12/1.

Alumni office offers decal

Did you miss getting a UCF Alumni Association window decal before the supply ran out? The Alumni Relations Office now has about 1,000 more available to alumni.

The can get a free, black and gold decal with the Alumni Association logo by contacting the Alumni Relations Office, ADM 350, x2233.

Decals were recently mailed to alums who graduated from fall 1979 through spring 1980.

All home games in bold face type.

** Sunshine State Conference games.

First award winner

Political scientists William Young, left, and Robert Bledsoe, check in hands, congratulate the first recipient of the annual scholarship which carries their names that was established by Roy Werner, Class of 1970. Senior Sandra Reed was the unanimous choice of the Department of Political Science faculty. Werner, who is a principle deputy assistant secretary of the Army, named the award after the two faculty members he considered especially important to him during his undergraduate days.

Tickets now on sale for Madrigal dinners

Tickets are now available for this year's Madrigal Dinners, slated for Dec. 11, 12, and 13.

The always popular event, which has become a sell-out over the years, features Renaissance-era entertainment with the UCF Chamber Singers, Recorder Consort, student dancers, heralding trumpets, and wandering minstrels, capped by a scrumptious meal fit for a king.

Seating each of the three evenings will begin at 7:10 p.m. in the Student Center Multipurpose Room, with dinner to start promptly at 7:30 p.m. Tickets are \$12 apiece,

Workshop to look at college costs

Some answers to financing a college education in these inflationary times will be explored in a special, two-evening workshop offered next month.

The 7-to-10 p.m. sessions on Dec. 1 and 8 will examine ways in which families and individuals who may be struggling to find their way through a maze of financial aid regulations can help themselves.

Two members of the Student Financial Aid office, Don Baldwin, director, and Glenn Hardeman, systems analyst, will be on hand to provide the answers.

There is a \$35 fee for the two sessions. Registration may be made by calling the College of Extended Studies, x2123.

Concert slated this Saturday

The Department of Music will present another concert in the Faculty Artist Series on Saturday at 8 p.m. in the Music Rehearsal Hall.

The concert will be a chamber music recital featuring Anna Constantino Farina, harpsichord; Carol Hall, flute; and Eric Lesko, guitar.

Works by Dowland, Hand, Baron, Ibert, Diabelli, Bach, and Boccherini will be performed.

A \$2 donation at the door will benefit the University's Music Scholarship Fund.

UCF wind ensemble to play at Valencia

The UCF Wind Ensemble will present a concert at 8 p.m. Dec. 3 in the Valencia (East) Community College auditorium.

The program, conducted by Jerry Gardner, will include the works of Grainger, Hindemith, Piston, Vaughn Williams, and others.

The 48-member group is primarily comprised of music majors at UCF and performs for both concert band and wind ensemble. Gardner is in his first year as director of bands at the University, and most recently led the Marching Knights in their debut at the Tangerine Bowl.

The program at VCC is free and open to the public.

and may be purchased by sending a check, specifying the number of seats, to the UCF Department of Music.

As seating is limited, early reservations are recommended.

Women's Club plans coffee

Members of the UCF Women's Club are busy making Christmas tree ornaments to be exchanged at a 10:30 a.m. coffee at the home of President and Mrs. Colbourn on Dec. 4. Also on the menu will be holiday goodies to tempt the appetite.

Members planning to attend should contact Judy Stout (365-7431) or Clara Coleman (678-0847) by Dec. 1.

Ornaments should be wrapped so they can go under the tree before the exchange.

Students slate ceramics sale

Students in ceramics classes will be selling their wares at a Christmas pottery sale, scheduled Dec. 3 and 4 in the Ceramics Lab (next door to the *Future* news office).

Most of the sale items will be of the "functional" variety—teapots, pots, bowls, mugs, vases—but there will be some sculptural offerings too, according to Lee McWhorter, ceramics instructor.

The sale will begin at 10 a.m. and run to 6 p.m. each of the two sale days.

WEDNESDAY, NOV. 26

Employment Opportunities

The University of Central Florida is an Equal Opportunity / Affirmative Action Employer.

Career
Opportunity
Line 275-2778

The Division of University Personnel Services lists the following available positions at UCF. They are listed by job title, department, minimum qualifications, annual salary range, bi-weekly salary, and closing date for applications. It is the responsibility of the applicant to successfully complete any required performance and/or written exams prior to being considered for a specific job opening. Tests are administered by appointment only, on a limited but continuous basis. If you are unable to schedule an exam for a current vacancy before the posted closing date, we encourage you to proceed with the exam so that you will be eligible for the next position in that class which becomes available. All test scores are valid for four years. For information on any required exams, as well as further details on these positions, contact Personnel at x2771. A listing of available faculty positions within the SUS is available on request at the receptionist's desk (ADM 230).

Career Service

Custodial Worker (Building Services, two positions). Ability to follow written and oral instructions. Hours: 6 a.m. to 2:30 p.m. \$6,660.72-\$8,393.76, \$255.20. 11/27; 12/04.

Clerk Typist III (Library; Student Affairs; Alumni Relations). Graduation from high school and two years of typing and/or clerical experience. Written and typing exams. Alumni Relations prefers data entry experience, and Student Affairs prefers University experience. \$8,017.92-\$10,272.96, \$307.20. 11/27; 12/04; 12/04.

Clerk Typist II (Registrar's Office). Graduation from high school and one year of clerical and/or typing experience. Written and typing exams. \$6,973.92-\$8,832.24, \$267.20. 12/04.

Clerk III (Bookstore). Graduation from high school and two years of clerical experience.

Written exam. University Bookstore experience preferred. \$7,662.96-\$9,771.84, \$293.60. 12/04.

Stock Clerk (Bookstore). Completion of tenth grade. Written exam. \$6,973.92-\$8,832.24, \$267.20. 11/27.

Bookstore Supervisor-Textbooks (Bookstore). Graduation from high school and four years of experience in buying and selling books, two years of which must have been in buying/selling textbooks in a university bookstore. \$10,878.48-\$14,261.04, \$416.80. 12/04.

Word Processing Systems Operator II (Sponsored Research). Graduation from high school and three years of secretarial experience. Written and typing exams. Excellent typing skills required. Position includes typing camera-ready copy of technical data, rough drafts or previously recorded materials; recording, revising, and updating lengthy material. Prefer experience on system six.

Attention all drivers!

In a hurry? Late for work or school? Don't compensate for time or traffic delays through the use of your vehicle, advises John Smith, chief of the University Police Department.

"Failure to obey traffic laws and devices on campus as well as off may result in the issuance of a State Uniform Traffic Citation, payable to the Orange County Traffic Court—not to the University," he reminded all campus drivers. "Besides being costly to the violator, points may be filed against your driving record which may cost you your driving privilege."

Citation fines start at \$15 and go up, depending on the seriousness of the offense. Drivers accumulating 12 points in a 12-month period face suspension of their driver's license for 30 days; 18 points in that same time period results in a suspended license for three months.

As an example, here is a partial list of violations and the points that would be assessed in each case: reckless driving (4); leaving the scene of an accident with property damage in excess of \$50 (6); unlawful speed resulting in an accident (6); unlawful speed (3 to 4); other moving violations (3 to 4); other moving violations resulting in an accident (4).

"Failure to read the signs or know the laws is not a defense when caught in a violation," Smith explained. To keep drivers—and that includes bicycle riders—on campus abreast of the rules and regulations of the road, the University Police Department has available, free for the asking, copies of the University's Parking and Traffic Manual. A Florida Drivers Handbook is available from any state driver's license office.

"The University Police Department is required by law to enforce the laws of the state," the chief added. "But really, obedience to traffic laws and safety just makes good sense—it could save your life."

Publications and papers

Ida Cook and Charles Unkovic (both Sociology) co-authored an article entitled "A Critical Analysis of Programs for the Woman Alcoholic in the United States of America," which was accepted for publication by the *Yugoslav Journal of Alcoholism*.

I. Jack Stout (Biological Sciences) presented a paper on "Non-game Wildlife" and the recently approved Forsythe-Chafee Act to the Florida Chapter of The Wildlife Society, Inc., at Gainesville on Oct. 10. He also presented certificates of achievement from the chapter to the Florida Audubon Society and the Florida Defenders of the Environment for their roles in achieving publication of the book series, "Rare and Endangered Biota of Florida."

David W. Gurney (Instructional Programs) gave a performance in Verdi's "La Traviata" with the Camerata Chorus at the Bob Carr Auditorium Nov. 7 and 8. Last month he conducted two workshops on techniques for developing the use of foreign languages entitled "Superglue in the Classroom." The workshops were held at the Southern Conference on Language Teaching in Charleston, S.C., and the annual conference of the Florida Foreign Language Association in Sarasota.

Sharon E. Douglass (Respiratory Therapy) attended the Second Biennial Perinatal Association meeting in Atlanta, Nov. 1-5. She also has been elected chairman of the Perinatal/Pediatric Section, a membership section of the American Association for Respiratory Therapy, for the 1981 term, and is the 1981 representative to the National Commission for Health Certifying Agencies for the American Association for Respiratory Therapy.

Robert L. Bledsoe (Political Science) participated in a NSF Chautauqua Short Course, "Arms Uncontrolled: Causes and Remedies of the Arms Race," conducted by Everett Mendelsohn of Harvard University at Hampshire College in Massachusetts, Nov. 10 and 11.

Clarence G. Avery (Accountancy) participated in the American Assembly of Collegiate Schools of Business Workshop held in St. Louis, Mo., Nov. 14. The following day he made a presentation, "Accounting Accreditation as Approved by the American

Assembly of Collegiate Schools of Business, June 1980," to the Florida Association of Accounting Educators fourth annual meeting held at Howey-in-the-Hills.

Richard G. Fritz (Economics) was guest speaker at the Florida Zoners and Planners Association Annual Conference. His speech, "Growth Projection for the Central Florida Economy," was delivered at the Hilton Hotel on International Drive, Nov. 13.

James Koevenig (Biological Sciences) was awarded second place at the 1980 Maitland Art Center's Annual Members Juried Exhibit.

Terry L. Campbell, Shirley R. Cossaboom, and John H. Salter (all Accountancy) attended the Florida Association of Accounting Educators fourth annual meeting at Howey-in-the-Hills, Nov. 14 and 15.

Jean Williams (Bookstore) attended a merchandising seminar sponsored by the National Association of College Stores, held at the North Park Inn, Nov. 22-25, in Dallas, Tex.

The UCF Report

The UCF Report is published every Wednesday during the academic year, and bi-weekly during the summer, at a cost of \$166 or 7.5 cents per copy. For further information on any material appearing in this publication, contact K.G. Sheinkopf, director, Office of Information Services, Administration Building 395-K, phone 275-2504.

Deadline for all submitted material is Thursday noon of the week preceding publication.

For assistance in publicizing programs or events in the local media, call Bill Daum, Public Affairs, 275-2848.
